Subject: Application for Logistics, Warehouse or Delivery Specialist Positions

Dear Hiring Manager,

I am writing to express my strong interest in joining your team. With over five years of hands on experience in high volume warehouse operations, parcel distribution and last mile delivery. I am ready to bring immediate value and efficiency to your logistics operations.

Throughout my career, I have managed end to end supply chain workflows, including receiving, sorting, picking, packing, barcode scanning and inventory tracking. I have successfully maintained a 100% on time delivery rate while meeting strict Service Level Agreements (SLAs) and keeping a zero accident safety record.

To support my practical experience, I hold a **Professional Soft Skills Certificate issued by the International Centre for Migration Policy Development (ICMPD) and OEC**, verifying my training in European-standard workplace safety, communication, and adaptability. This training advanced my capabilities in workplace communication, customer service and problem solving. Combined with my B2-level English, I am fully prepared to integrate into your team.

I am physically fit, highly adaptable and motivated to relocate for this opportunity. Thank you for your time and consideration. My CV is attached and I welcome the opportunity for an interview.

Sincerely
Hamza Tariq
